Hi Don

We would both like to thank you and your team for a doing a fantastic job selling our Business. The process is very daunting and stressful when you are negotiating with prospective buyers and potential new bosses!!

Your understanding of our needs and the professional manner in which you dealt with our sale were much appreciated and although the process can be lengthy you were always available to talk through any sticking points.

We would be more than happy to recommend your services or discuss with any of your new clients our experience of selling our business and the up's and downs of the process.

We thank you again and will keep in touch on how our deal has progressed throughout the year, it's been a pleasure to work with you and consider you a friend and business associate.

Kind Regards

Peter & Bob
Directors
